

## ON-FARM EMERGENCY WATER INFRASTRUCTURE REBATE SCHEME SCHEME GUIDELINES

### ABOUT THE SCHEME

The Victorian Government (through Agriculture Victoria of the Department of Jobs, Precincts and Regions (**Agriculture Victoria**)) is offering a rebate to drought affected farmers who invest in urgently-needed on-farm water infrastructure that addresses animal welfare needs. The rebate funding is being made available from an allocation from the Australian Government.

The Scheme provides a one-off 25 per cent rebate up to \$25,000 (GST exclusive) to eligible primary producers for the costs associated with the purchase and installation of on-farm water infrastructure that addresses animal welfare needs and improves resilience to drought.

The On-Farm Emergency Water Infrastructure Rebate Scheme (the Scheme) is available for the purchase and installation of emergency water infrastructure for livestock.

The Scheme is available to eligible farm businesses in the following Local Government Areas:

Wellington	Wangaratta
East Gippsland	Wodonga
Swan Hill	Indigo
Gannawarra	Alpine
Loddon	Towong
Campaspe	Mildura
Greater Bendigo	Hindmarsh
Greater Shepparton	Yarriambiack
Moira	Buloke
Strathbogie	Horsham
Benalla	Northern Grampians

Farm businesses outside of the above Local Government Areas can make an application if they can demonstrate a critical water need for livestock resulting from current seasonal conditions. These applications will be assessed on a case-by-case basis.

## SCHEME OBJECTIVE

The Scheme will provide funding for one-off rebates to eligible primary producers for the costs associated with the purchase and installation of on-farm water infrastructure that addresses animal welfare needs and improves resilience to drought.

## ASSISTANCE AVAILABLE

The rebate is 25 per cent of the cost of purchase, delivery and/or professional installation of on-farm water infrastructure for animal welfare needs and to improve resilience to drought. The maximum rebate that can be claimed is \$25,000 (GST exclusive) per farm enterprise.

The availability of rebates is subject to funds being available. No rebates will be offered beyond the allocated Australian Government funding of \$5 million (ex GST). The Scheme will close on 30 June 2020 or when the funding is fully allocated, whichever comes first.

## ELIGIBLE ACTIVITIES

Water infrastructure must be purchased and installed for a genuine emergency animal welfare need and to improve drought resilience. Eligible water infrastructure includes:

- a. Pipes
- b. Water storage devices such as tanks and troughs associated with stock watering
- c. Water pumps
- d. Permanent repairs to fixed infrastructure (e.g. repair piping)
- e. Drilling of new stock water bores and associated power supply such as generators, desalination plants
- f. Desilting works of existing stock and domestic dams, where you can demonstrate that area of the property does not have access to suitable groundwater
- g. Other materials or equipment necessary to install the above excluding purchase of machinery
- h. Any freight component to purchase and install the equipment
- i. The professional installation costs to install the water infrastructure.

## INELIGIBLE ACTIVITIES

The Scheme will not provide funding for (but is not limited to):

- a. Water infrastructure that has been purchased and installed where there is not an emergency animal need or the potential for this need
- b. Water infrastructure that has been purchased and installed for uses other than to supply water for livestock
- c. Water infrastructure for irrigation (including pasture, crop or fodder irrigation)
- d. Wages for your employees or your self-assessed labor or transport costs
- e. Other types of on-farm infrastructure that do not relate to water improvements
- f. Activities to which you have made a financial commitment prior to **1 July 2018**.

*“The rebate is 25 per cent of the cost of purchase, delivery and/or professional installation of on-farm water infrastructure for animal welfare needs and to improve resilience to drought.”*

## ELIGIBILITY

### To be eligible to access funding under the Scheme:

- a. You are a property owner, share farmer or lease holder undertaking grazing livestock production
- b. Your property is located in an eligible Local Government Area, OR

You can provide evidence of severely depleted on-farm water storage or water source that could result in an animal welfare need. This will be assessed on a case-by-case basis.

- c. You are a primary producer, and as the owner and operator:
  - i. You are registered as a primary producer with the Australian Tax Office and have an ABN and are registered for GST
  - ii. You have a right or interest in the land for the purposes of primary production
  - iii. You contribute a significant part of your labor and capital to the farming enterprise, and under normal business conditions, you earn more than 51 per cent of your individual income from the farming enterprise<sup>1</sup> OR
  - iv. You commenced your farming operation between 1 July 2015 and 30 June 2018 and 50 per cent of your gross income will be derived from your Primary Production Business within three years of the date of your Application. Eligibility of new entrants will be considered on a case-by case basis.

- d. You have purchased the eligible water infrastructure on or after the **1 July 2018**.
- e. You can demonstrate that your property has, or is at risk of, an emergency animal welfare needs, which could include:
  - i. Water is currently being carted or about to be carted onto your property to supply livestock where water supply has run out; or
  - ii. Your property could be reasonably expected to run out of water before the next expected inflow of water; or
  - iii. The work will help ensure that the on-farm stock water supply system is more resilient to future dry seasonal conditions.

Applicants that have received, have in-principle approval or intend to apply for a Victorian Government On-Farm Drought Infrastructure Support Grant are also eligible to apply for the rebate for eligible water infrastructure under this Scheme, subject to meeting the Scheme eligibility requirements. Approval for the On-Farm Drought Infrastructure Support Grants does not guarantee eligibility for this Scheme.

---

<sup>1</sup> As a guide it is anticipated that farm turnover would exceed \$50,000 per annum under normal business conditions. Normal business conditions refer to a year with no adverse climatic conditions (drought/flood/fire) in which average yields/productivity is achieved. Normal year income is based on this productivity and long-term achievable commodity prices.

## APPLICATION AND ASSESSMENT PROCESS

Applicants should carefully consider activities against the eligibility criteria set out in the Guidelines before submitting an Application.

Applications will be assessed against the eligibility criteria.

Rural Finance and/or Agriculture Victoria reserves the right to request further information from you or from any business or individual you have engaged, to assist in assessing the Application and to verify any information provided in your Application.

Applications submitted may be subject to an audit to determine compliance with the Scheme Guidelines.

Applications for rebates must be made on the application form and be accompanied by the documentation stated in the application form.

Complete Applications will be processed in order of receipt.

By signing the application form, you are declaring that the information provided in the application form and supporting documentation is true and accurate.

Providing inaccurate, untrue or misleading information may be a breach of criminal law for which serious penalties may apply.

### Rebate administration process:

Infrastructure that has been purchased since 1 July 2018 <sup>2</sup> but PRIOR to the time of submitting this Application	Proposed new infrastructure purchases
Complete application form including supplying all supporting documentation.	Complete application form including supplying all supporting documentation.
Applicants are required to supply tax invoices and receipts for all rebate claims and photos of completed infrastructure implemented (or other evidence of installation).	Applicants are required to supply a quotation for the proposed water infrastructure investment with details of your current water and proposed water infrastructure placement.
Approval or rejection of the application will be communicated to the applicant.	'In-principle' approval or rejection of the application will be communicated to the applicant.
On approval, payment of the approved amount will be arranged and processed as soon as possible via electronic funds transfer to the applicant's nominated account.	On receiving written 'in-principle' approval, applicants are required to purchase infrastructure investment within three months of the date of approval.
	<p>On completion of the water infrastructure project, grant recipients are required to forward paid tax invoices/s for all rebate claims and photos of completed infrastructure implemented (or other evidence of installation) to Rural Finance. The grant recipient must pay for the project and/or activity initially and then Rural Finance will forward payment of the grant amount on completion.</p> <p>Payment of the approved amount will be arranged and processed as soon as possible via electronic funds transfer to the applicant's nominated account.</p>

<sup>2</sup> There is no guarantee that infrastructure already purchased will be provided the rebate. All eligibility will need to be met prior to approval.

## EVALUATION OF THE SCHEME

The Victorian Government, in conjunction with the Australian Government may conduct an evaluation to determine the extent to which the Scheme has met its objectives. Rebate applicants and recipients may be requested to provide information to assist in auditing during the Scheme or the evaluation after the Scheme's completion.

## PUBLICITY

Rebate recipients may be asked to assist Agriculture Victoria in promotion of the Scheme. This may include involvement in media releases, case studies or promotional events and activities.

Agriculture Victoria may request recipients to fact check any text and seek all relevant approvals in order for Agriculture Victoria to use any imagery provided by the recipient associated with the Scheme prior to the publication of any such promotional materials.

Agriculture Victoria may publicise the benefits accruing to the recipient and/or the State of Victoria associated with the provision of an On-Farm Emergency Water Infrastructure Rebate.

## CONFIDENTIALITY

Any personal information provided by the Applicant or a third party in an application will be collected by Rural Finance and Agriculture Victoria for the purpose of administration of the Scheme. This information may be provided to other Victorian Government bodies for the purposes of assessing On-Farm Emergency Water Infrastructure Rebate Grant applications.

Data gathered through assessments may be compiled, aggregated and anonymised by Rural Finance and Agriculture Victoria for Scheme reporting, evaluation and research purposes.

Any personal information collected, held, managed, used, disclosed or transferred will be held in accordance with the provisions of the *Privacy and Data Protection Act 2014* (Vic) and other applicable laws.

Agriculture Victoria is committed to protecting the privacy of personal information. Agriculture Victoria's Privacy Policy can be found online at [economicdevelopment.vic.gov.au](https://economicdevelopment.vic.gov.au).
